**Pillar II**

## CAADP

- A CONTINENT-WIDE VISION OF THE AGRICULTURAL DEVELOPMENT : An Agriculture-led development program for Africa
- AN AFRICAN INITIATIVE:
  - Inspired and fully owned by African Governments,
  - Coordinated by the RECs,
  - Facilitated by the AU/ NEPAD,
  - Implemented by the countries,
  - Designed to add value to National planning efforts.
- **Main Objective:** Accelerate Agricultural Growth, Reduce Poverty And Ensure Food And Nutritional Security.
- **Goals:**
  - Achieve 6% average annual growth in Agriculture
  - Allocate 10% of national budgets to Agriculture
  - Achieve MDG N°1 of poverty reduction by half by 2015.

# CAADP PILLARS

Pillar I:  
Extending the  
area under  
sustainable land

**Pillar II:  
Improving rural  
infrastructure  
and trade-  
related  
capacities for  
market access**

Increasing food  
supply, reducing  
hunger and  
improving  
responses to  
food emergency  
crises

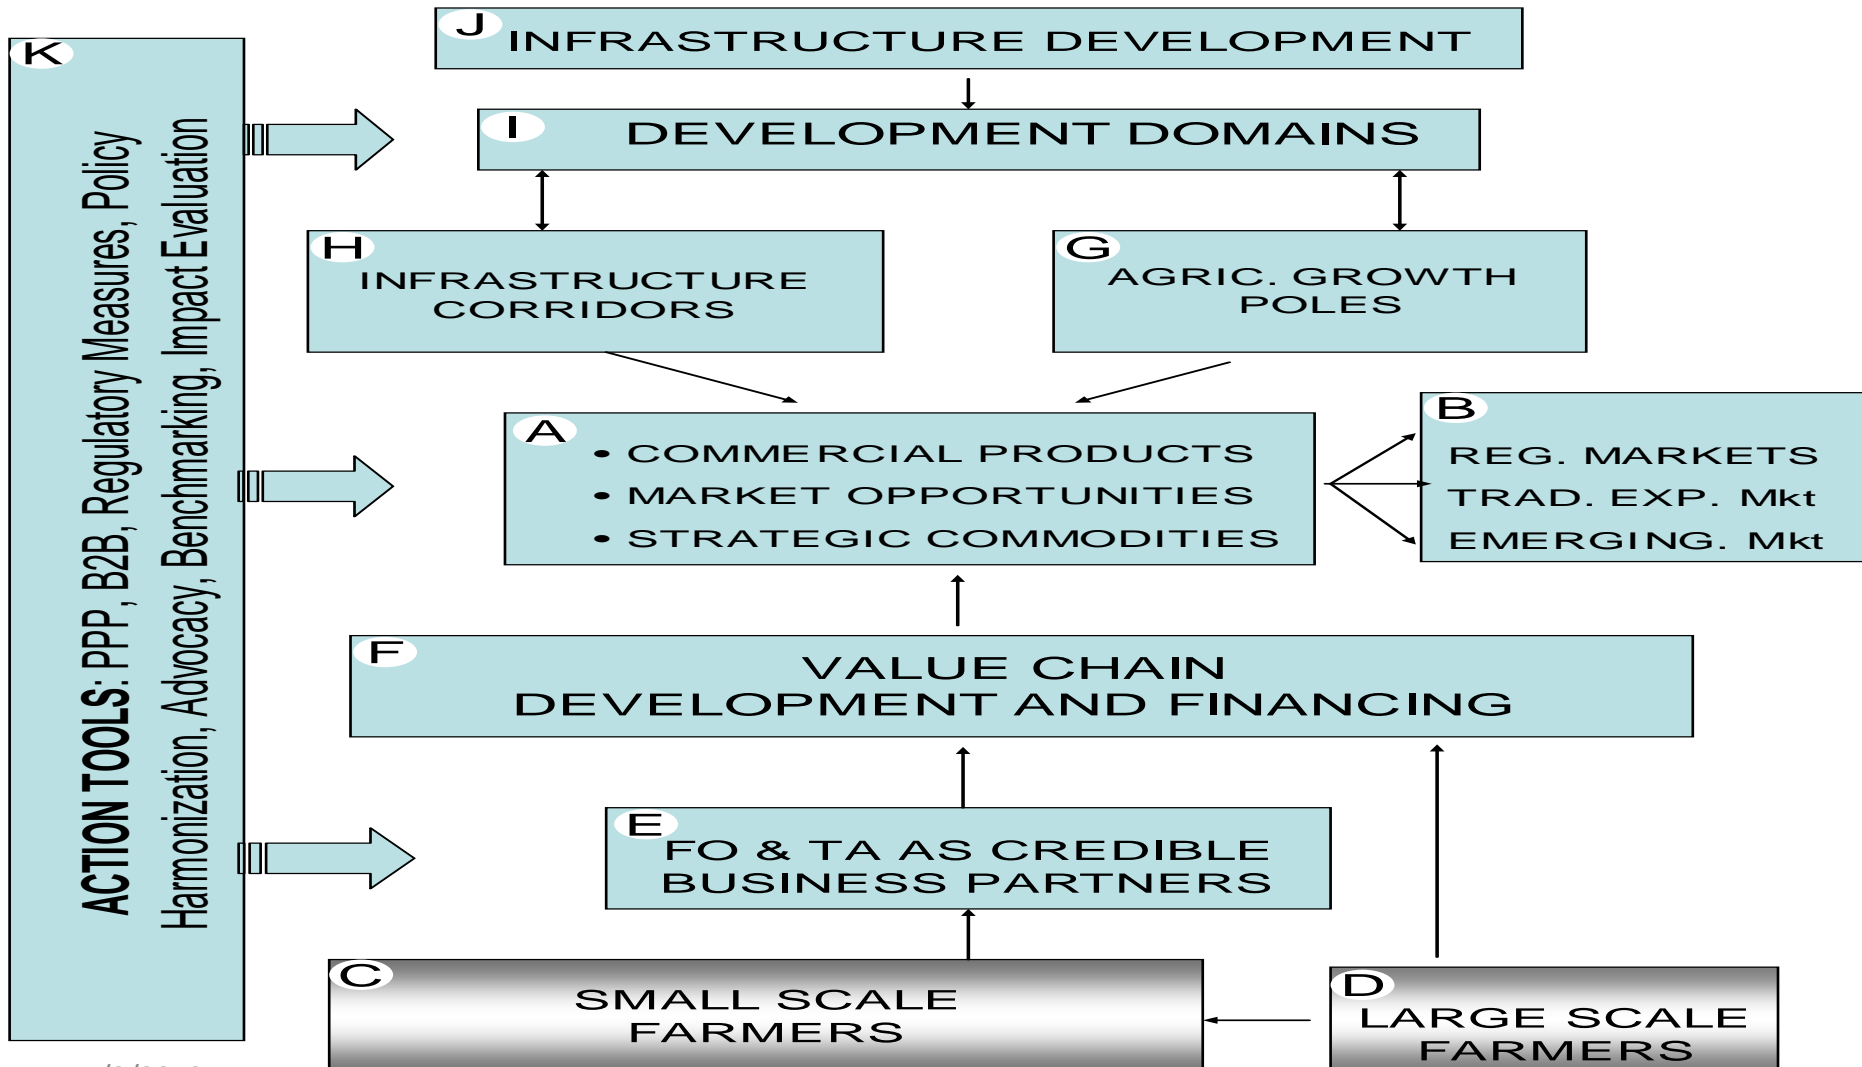

Pillar IV:  
Improving  
agricultural  
research,  
technology  
dissemination  
and adoption

- **CAADP Pillar II Objective:**

Accelerate growth in the agricultural sector by strengthening the entrepreneurial capacity of large and small producers to meet the increasingly complex demands of local, regional and international markets in terms of quality and logistics

## PILLAR 2 FRAMEWORK OUTLINE

## Pillar 2

The four strategic areas identified in the Pillar II framework

Strategic Area A:  
Increasing competitiveness and  
seizing opportunities in international  
markets

Strategic Area B:  
Investing in trade infrastructure and  
commerce to reduce the cost of supply

Strategic Area C:  
Value chains Development and access to  
financial services

Strategic Area D:  
Strengthen the technical and commercial  
capabilities of farmers' organizations and  
trade associations

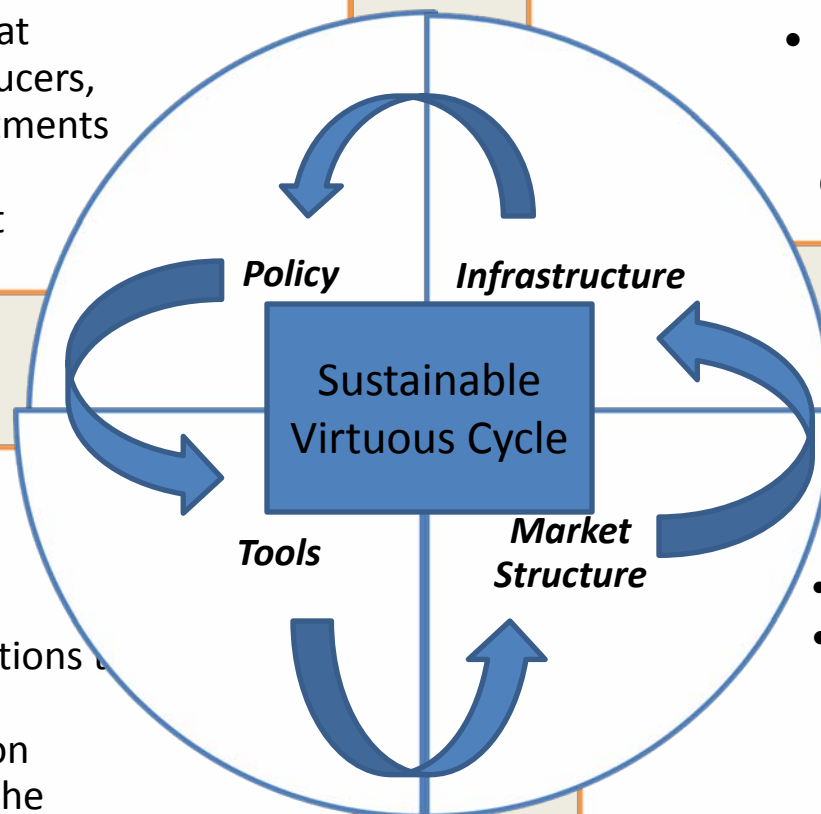

# Africa Rice Can Only Work if Supported by .....

## • POLICY

- Frameworks and incentives that protect producers, attract investments and facilitate development

## • INFRASTRUCTURE

- Mechanization, Roads, Millers, Irrigation facilities, Processing Equipments etc

## • TOOLS

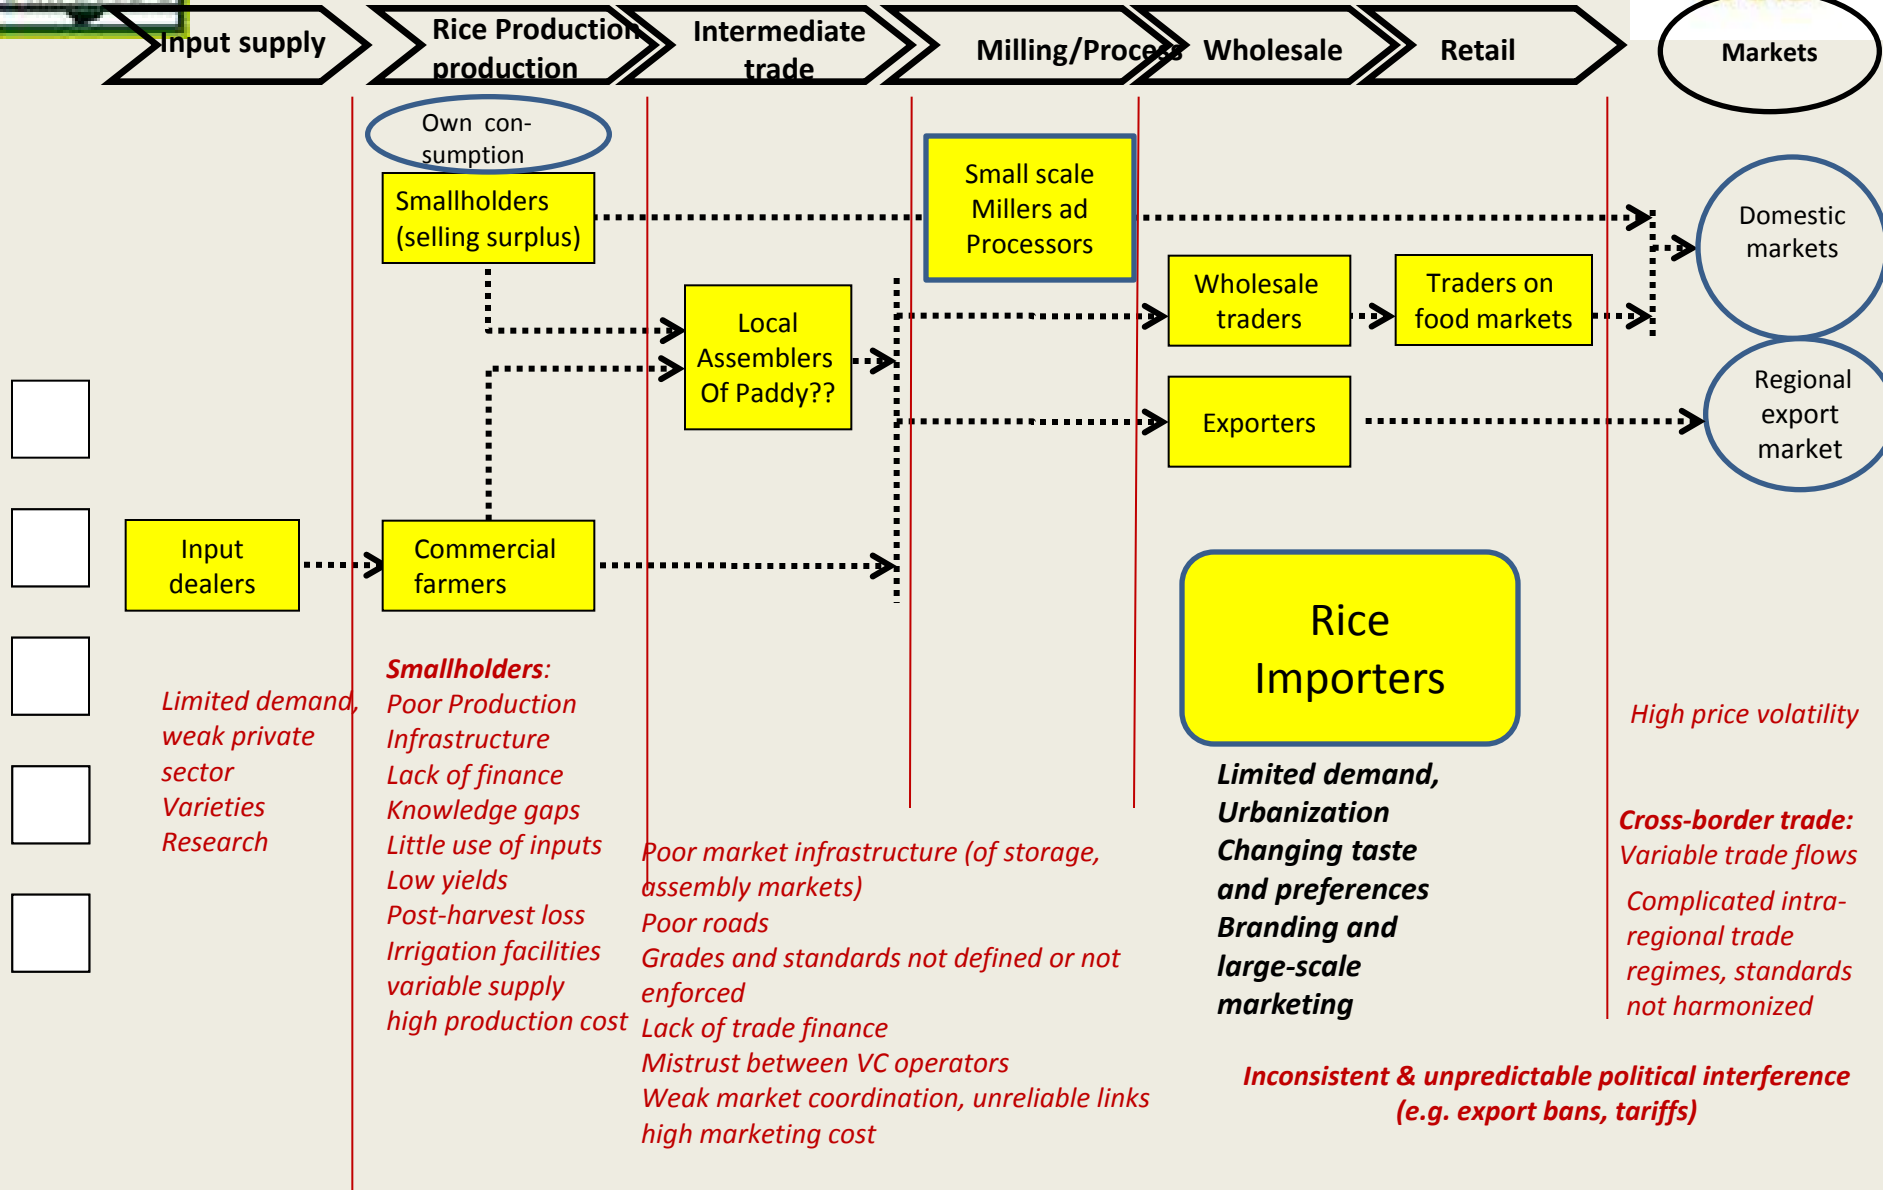

- R&D Interventions to fix Specific bottlenecks on stages along the value chain

## • MARKET STRUCTURE

- Strong Web of Actors that facilitate efficient links between farmer supply and consumer demands

# Rice value chain: Typical constraints

# PILLAR 2 VC DEVELOPMENT OPPORTUNITY FOR CARD

- Capacity to promote and coordinate investments around value chains
  - *Aims to strengthen existing support structures – policies, coordination platforms and services; focuses on the ability and expertise of (individual) operators and supporters to perform their roles in chain upgrading.*
- Capacity of specific value chains to perform to meeting the target of doubling rice production
  - *Aims to strengthen organized linkages between farmers, food industry and markets; focuses on linkages and coordination of the VC, as well as the ability of (individual) VC operators to perform their tasks*

# Rice Commodity Value Chain Stakeholder Workshop

- **Target group:**
  - Stakeholders (operators) in the Rice Industry country level and public sector representatives as secondary co-participants (MoA, MoF, DPs, etc.)
- **Contents**
  - The relevance of VCs within the CARD Process (very brief introduction in the CARD implementation process, brief analysis of VC components of NRDS, Rice in the overall Strategy of the National Agricultural Investment Program (NAIPs))
  - VC concepts
  - VC analysis (Focused on Rice and the country-specific).
  - Fields of investment and upgrading strategies for the Rice commodity chain
  - Investment opportunities arising from the fields of intervention of the specific commodity VC (prioritized according to NAIP)
  - Access to finance in relation to NAIP and NRDS

# Objectives/Outcome of The Rice VC stakeholder Workshop

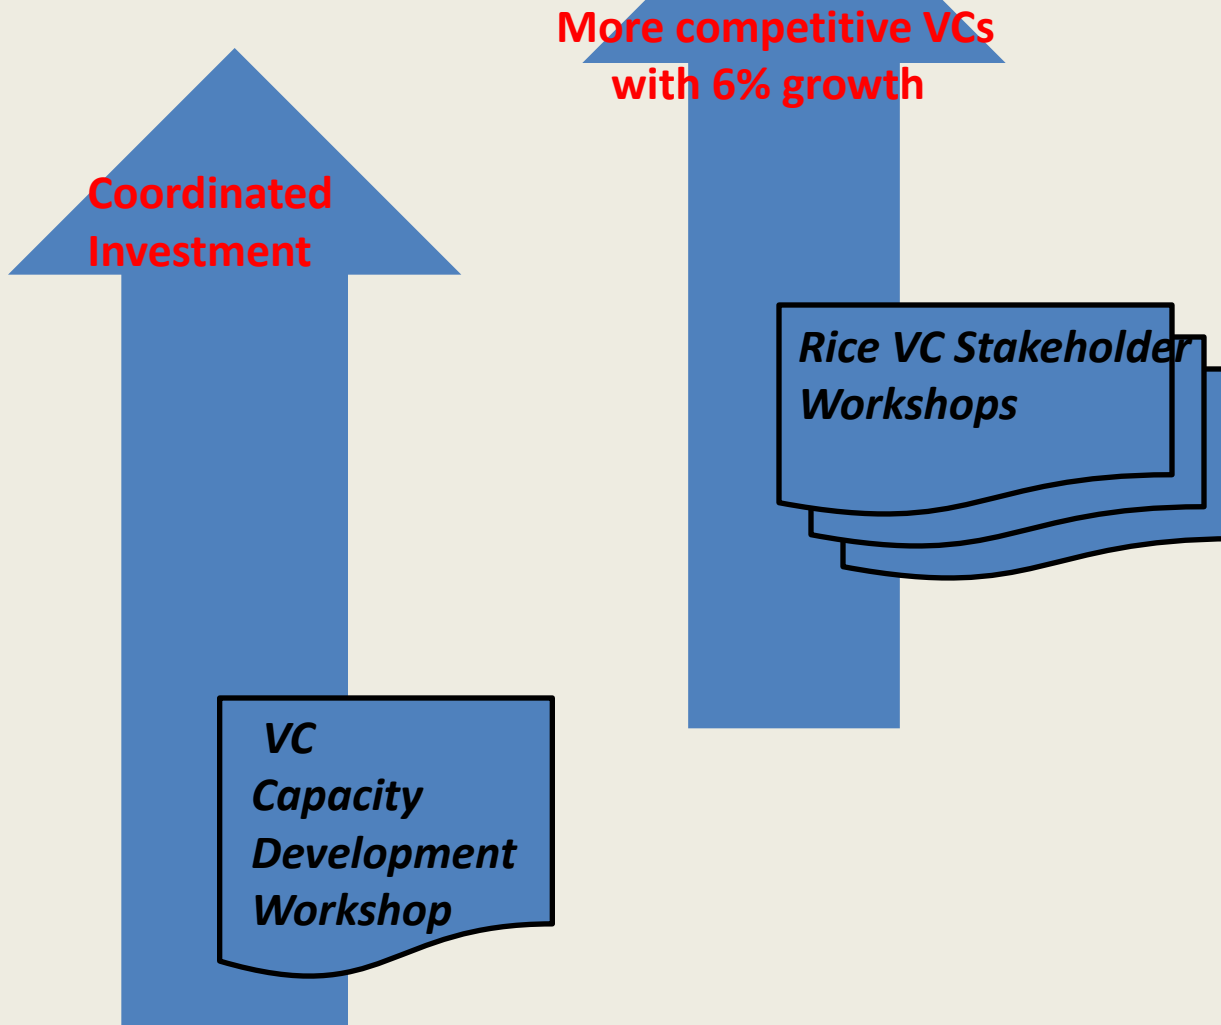

- Facilitate linkages between fields of investment (e.g. contract farming/embedded financial services with horizontal cooperation/cooperative development) and bring these inter-relations in a coherent way within the NRDS Task Force.
- Raise awareness of the VC operators regarding the VC components in their NRDS
- Ensure that demands of the private sector are heard, that gaps identified by the private sector regarding the NRDS are discussed with the public sector
- Promote collaboration among all actors of the VC
- Boost co-investment of the private sector in the prioritized VC of the NAIP
- Make public sector understand what are the needs of the private sector
- Setting the basis for future PP-Dialogue, B2B meetings, regular commodity sector meetings, creation of commodity-specific VC platforms

# CAADP PILLAR TO CAPACITY DEVELOPMENT WITHIN THE SCOPE OF CARD

## *Two processes of capacity development*

## Pillar 2

### DOCUMENTATION IN THE CD

- FRAMEWORK FOR IMPROVEMENT OF RURAL INFRASTRUCTURE AND MARKET ACCESS (FIMA)
- BROCHURES FOR DISSEMINATION OF THE FIMA STRATEGIC AREAS
- PILLAR 2 IMPLEMENTATION GUIDE IN THE PROCESS OF ROUNDTABLES PREPARATION (Challenges and emerging trends to take into account, market opportunities to seize, strengths to exploit, major program components to consider).
- ROADMAP FOR THE IMPLEMENTATION OF CAADP PILLAR 2 (containing the good practices identified in 15 Africa countries)
- SET OF TOOLS TO FACILITATE THE IMPLEMENTATION OF EARLY ACTIONS ADVOCATED IN THE FIMA 4 STRATEGIC AREAS
