

## Overview: CARD 2<sup>nd</sup> Regional Workshop for Promotion of Agricultural Mechanisation

22 – 24 October 2012, Nairobi, Kenya

**CARD**

COALITION for AFRICAN  
RICE DEVELOPMENT

### Background: NRDS Process

### Background: Prioritisation – 12 G1 countries

	Policy / Institutional	Infrastructure	Human resource capacity	Provision / support	Information / knowledge
Seed					
Fertilizer					
Irrigation / water management					
On-farm technology dissemination (R&E)					
Mechanization					
Quality improvement					
Access to market					
Access to credit					
Overall policy tools					

### Background: Prioritisation – 8 G2 countries

	Policy / Institutional	Infrastructure	Human resource capacity	Provision / support	Information / knowledge
Seed					
Fertilizer					
Irrigation / water management					
On-farm technology dissemination (R&E)					
Mechanization					
Quality improvement					
Access to market					
Access to credit					
Overall policy tools					

## Mechanisation Process – Timeline

Work to be completed **by December 2012** to get ready for;

- CARD GM5 – Feb 2013 and
- TICAD V – May 2013

**CARD** COALITION for AFRICAN  
RICE DEVELOPMENT

## What We have Done in the Last Workshop (Feb. '12)

- 1) Identified key stakeholders to involve respectively in technical & policy tracks and prepare a full list.
- 2) Learned guiding principles of identifying appropriate machineries and adopt them into each step of the process (when, what, with whom and how).
- 3) Identified (drafted) policy tools which try to provide enabling environment on mechanisation for private sector players. Examine each of them in a given format.
- 4) Exchanged experiences in institutional arrangements respectively in technical & policy tracks. Discussed promising arrangements in each country.
- 5) Prepared road map of the process for both technical & policy tracks to present at "one-day stakeholders' launch meeting".

**CARD** COALITION for AFRICAN  
RICE DEVELOPMENT

## What We Do in this Workshop (1) (Oct. '12)

- 1) Stocktake the progress made by each country, share/ peer review the experiences and discuss the way forward:
  - a) Discussions/ consultations with the identified key stakeholders to involve respectively in technical & policy tracks;
  - b) Identification of appropriate machineries and adoption into each step of the process (when, what, with whom and how);
  - c) Elaboration of policy tools which try to provide enabling environment on mechanisation for private sector players.
- 2) Upgrade the road map of the process for both technical & policy tracks.

**CARD** COALITION for AFRICAN  
RICE DEVELOPMENT

## What We Do in this Workshop (2) (Oct. '12)

- 3) Technical Inputs and introduction of new elements:
  - a) Developing Agricultural Machinery Industrial Sector in Africa depending on (UNIDO)
  - b) Social and technical implication in improving post-harvest operations - linking value chain (JICA)
  - c) Comparative study on Cost Analysis for mechanization (CARD)
  - d) Introduction of the Analysis (Comparative study) on Regional Processing (CARD)

**CARD** COALITION for AFRICAN  
RICE DEVELOPMENT

Thank you.  
Merci beaucoup.
