

# AGENDA 9 NEXT STEP

**CARD**

COALITION for AFRICAN  
RICE DEVELOPMENT

# Challenges of CARD Phase2

## Accelerate increase in rice production through resource mobilization

- Progress: Not on track
  - ✓ CARD Phase2 Target: 56 mil tons (2030)
  - ✓ Progress: 37 mil tons (2023)
- Implementation of rice development activities should be accelerated and expanded through resource mobilization

## Promote sustainable rice development beyond 2030

- CARD Phase 2 passed the half way point.
- The demand of rice in SSA will continue growing remarkably
- From a medium- to long-term perspective, sustainable rice development should be promoted at country, sub-region and continental levels respectively.

# Possible Actions for Resource Mobilization (Tentative)

## **(1) CARD Secretariat**

- Stakeholder meeting at CARD GM10 & F/U actions with CARD member countries
- Approach other potential stakeholders

## **(2) Country and sub-regional levels (CARD member countries, RECs)**

- Realize project ideas with the support from SC members and DPs
- Budget allocation by national governments, RECs
  - To enhance sustainability, the NRDS TF should strive to secure government funding, even with a small budget, to conduct workshops and projects
- Approach to potential external agencies
  - Discussions of resource mobilization plans started by NRDS TF in several countries. Continuous actions should be made by NRDS TF with the support of CARD Secretariat (approaching DPs, private sector)

# Possible Actions for Sustainable Rice Devt beyond 2030

## **(1) Country and sub-regional levels (CARD member countries, RECs)**

- Enhance leadership and autonomy of NRDS TF and RECs, and institutionalize NRDS/RRDS process

## **(2) CARD Secretariat**

- Strengthen partnership with continental organizations (AUC, AUDA-NEPAD, any other organizations?) and RECs
- Create continental agenda (Kampala CAADP Declaration) and initiatives (ASBPP, any other initiatives?)
- Any events in the coming one year?
