

Information Sheet of KEN-Concept Note - 2							
1. Project Title	Expansion of area under rice cultivation through development of new irrigation infrastructures						
2. Location	23 rice growing Counties						
3 Type of Project	1	3	4	6	5		
	1. Grant, 2. Loan, 3. Technical Coop./Assistance, 4. National budget, 5. Private sector 6.						
4. Fields covered	2	3	4	7			
	1. Policy, 2. R & D, 3. Extension & Training, 4. Production, 5. Marketing 6. Post-						
5. Suggested Fund source	Development partners and Government of Kenya						
6. Budget / Cost	500 Million USD						
7. Project duration	Two phases of 5 years						
8. Target beneficiaries	Direct	Rice farmers in new irrigation schemes in Kenya					
	Indirect/Secondary	Input suppliers ,Rice Millers, Traders and Consumers (and other value chain actors)					
8. Overall objective (Goal)	Develop new irrigation schemes with gravity intake irrigation systems in line with the Water Master Plan 2030 (MoWS&I).						
9. Project objectives	Specific Obj 1:	Prioritize areas for new irrigation infrastructure development based on water master plan 2030					
10. Expected results/Projects outputs	R1.1.	Additional 99,012 Ha Hactares put under rice					
11. Components and Activities	Component 1 (Objective 1):						
	A1.1.1.	Conduct a feasibilty study on potential areas and prioritize					
	A1.1.2.	Develop Designs, implementation frameworks and sustainability					
	A1.1.3	Contract and implement					
	A1.1.4	Monitoring and evaluation
