

Republic of Guinea-Bissau

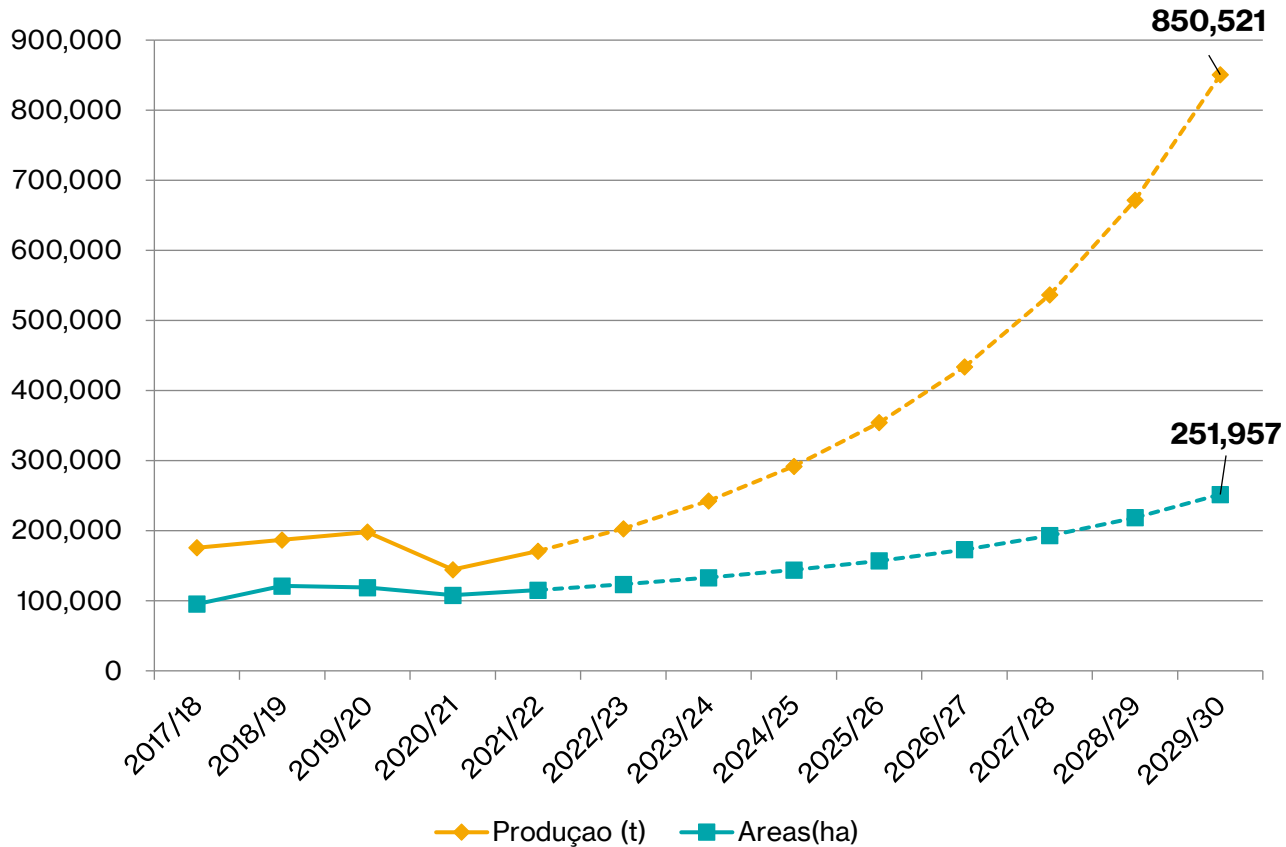

Ministry of Agriculture and Rural Development

GM9 country presentation

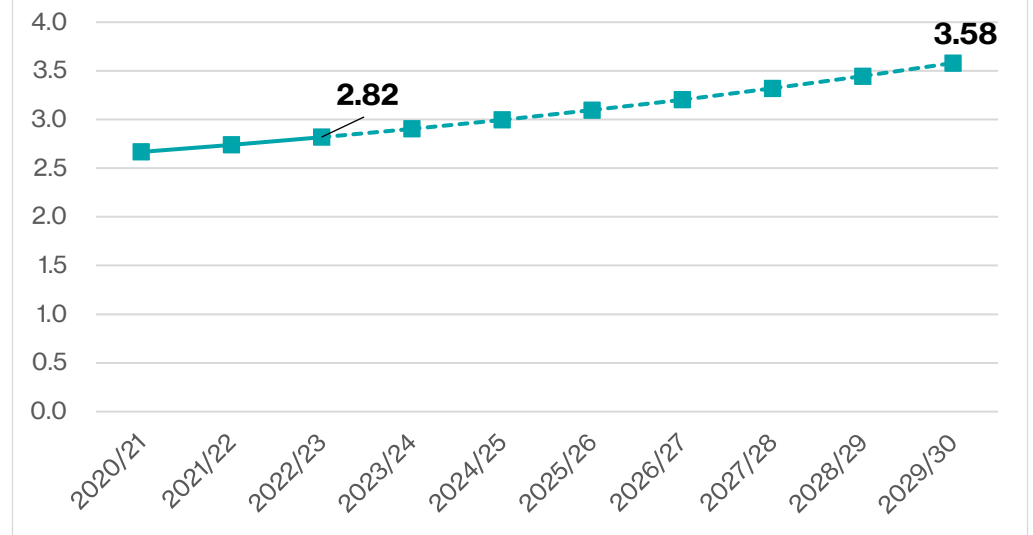

Overall indicators

Paddy production (t) and Harvested area (ha)

	2017/18	2024/25	2029/30
Production (t)	175 811	292 008	850 521
Área harvested (ha)	95 549	144 107	251 957

Yield (t/ha)

Self-sufficiency ratio (%)

Identified priority areas and Concept Notes

1. Priority areas

- 1) Increase rice production,
- 2) Improve quality,
- 3) Contribute to economic growth and inclusive development,
- 4) Contribute to the transformation of agriculture and to inclusive and sustainable agricultural growth

2) Concept notes or ideas for future projects

- 1) Smallholder farming diversification project focusing on markets, nutrition and resilience to climate change (REDE);
- 2) Project to support the value chain and rural agricultural entrepreneurship through the modernization of the production system;
- 3) Project to support the intensification of food production by modernizing the production system;
- 4) Project to Support Economic Development in Southern Regions (PADES) by modernizing the production system;

New projects after Phase 2 started

Title	Smallholder farm diversification project focusing on markets, nutrition, and resilience to climate change (REDE)	Value chain and rural agricultural entrepreneurship support project (PACVEAR)	Project to support the intensification of food production (PAIPV)
Concept note	Project to improve rice competitiveness in Guinea-Bissau	Project for the development of lowland rice fields and the promotion of rain-fed rice cultivation	Project to promote increased productivity and improve the competitiveness of rice in Guinea Bissau
Duration	2020 - 2025	2020 – 2024	2020 - 2025
Intervention zone	Cacheu, Oio, Bafata Gabu,	Oio and Bafata	Cacheu, Oio, Bafata Gabu,
Nature of the project	Cooperation financed through loans and grants	Cooperation financed through loans and grants	Cooperation financed through loans and grants
Implementation partners	State/FIDA	AfDB	State/BOAD
Budget	65 million US dollars	14.07 million US dollars	8,175 million US dollars
Objective	Increase agricultural productivity and market access for small producers and small and medium-sized agro-industrial entrepreneurs (SMEs) in selected value chains in the intervention areas	Increasing rice productivity in the context of climate change.	Increase agricultural productivity and market access for producers in the intervention area
Orientation/Specificities	<ol style="list-style-type: none"> 1. To increase agricultural productivity through the modernization of the agricultural production system; 2. Improving competitiveness and market access 3. Enable the country's private agricultural and agro-processing sector to become more competitive 	<ol style="list-style-type: none"> 1. To increase agricultural productivity through the modernization of the agricultural production system; 2. Improving competitiveness and market access 3. Enabling the agricultural sector to be competitive 	<ol style="list-style-type: none"> 1. To increase agricultural productivity, mainly by modernizing the agricultural production system; 2. Improving competitiveness and market access 3. Enable the country's private agricultural and agro-processing sector to become more competitive

Value chain development through private sector participation

Support from the public sector

- 1) Provision of mills, threshers, and advisory support.
- 2) Supporting production through subsidized fertilizers
- 3) Training of producers....

Thank you
