# **(2023)**

TECHNOLOGIES FOR  
AFRICAN AGRICULTURAL  
TRANSFORMATION (TAAT)

- We developed a portal to disseminate proven rice technologies and how they can be scaled <https://agri-technologies.faraafrica.org/>.
- This portal has been earmarked for further scaling in TAAT II with the Youth ENABLE compact playing a key role.

We further worked with the Rice and Wheat Compact

Develop and disseminate a brief on  
“Enhancing Commercialization of Africa’s  
Research Products” -

<https://library.faraafrica.org/2020/12/10/taat-cdto-technical-webinar-series-iii-briefing/>

**We provided our Knowledge Management Platform for dissemination of Rice technologies by TAAT through Zoom Webinar Series, Dgroups Discussions, and social media engagements, reaching out to over**

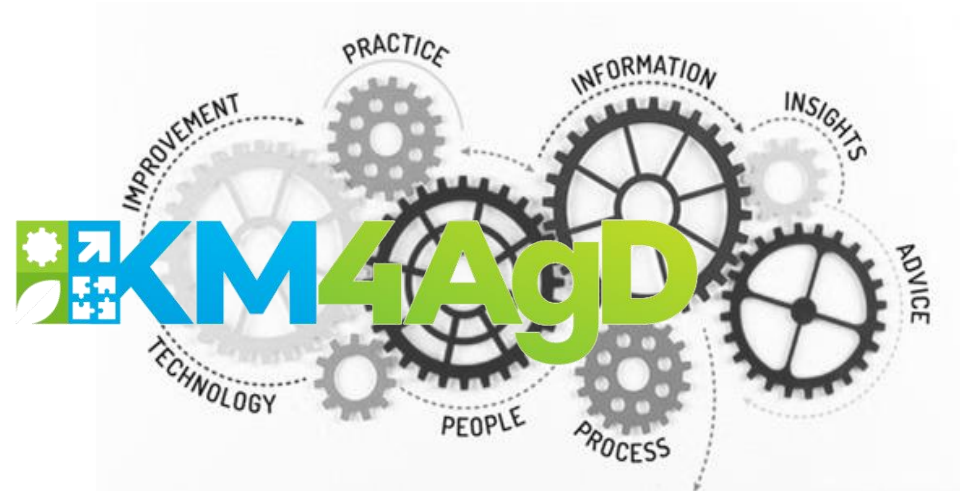

**20,000 stakeholders.**

# Knowledge Management *for* Rice

Within the KM4AgD initiative, FARA worked with the CGIAR Centers to train and certify the KM Officer for AfricaRice, as the KM practitioner for Sustainable Development, admitted into

KM Community of Practice and Fellows

The training strengthens networking and scaling of knowledge and information from the rice fraternity.

**PARI conducted studies  
and published**
